

# Ann Lichens-Park Microbiome Working Group Chair

Kellye Eversole, Phytobiomes Alliance  
Isabelle Caugant, Phytobiomes Alliance

# Discussion questions

- What are some areas that different microbiomes may have in common?
- What are some of the most important aspects of microbiomes that are likely to be unique?
- If there are general rules that might apply to microbiomes broadly, what is the most important to explore?

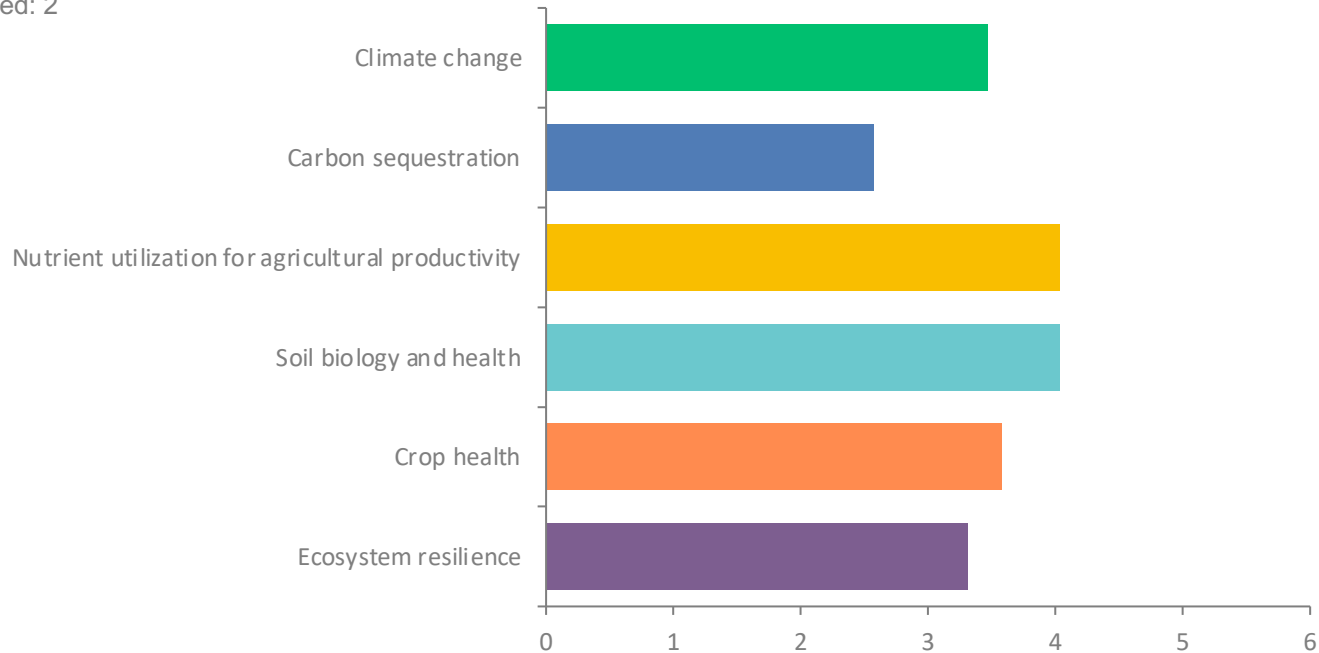

# Survey: Priorities for Alliance-coordinated Phytobiome research, activities, and proposals

September 2022

**Q: Ecosystem Health. Please indicate your order of priority of focal issues in plant microbiome research related to ecosystem health, with 1 being highest priority and 6 being lowest priority:**

Answered: 62 Skipped: 2

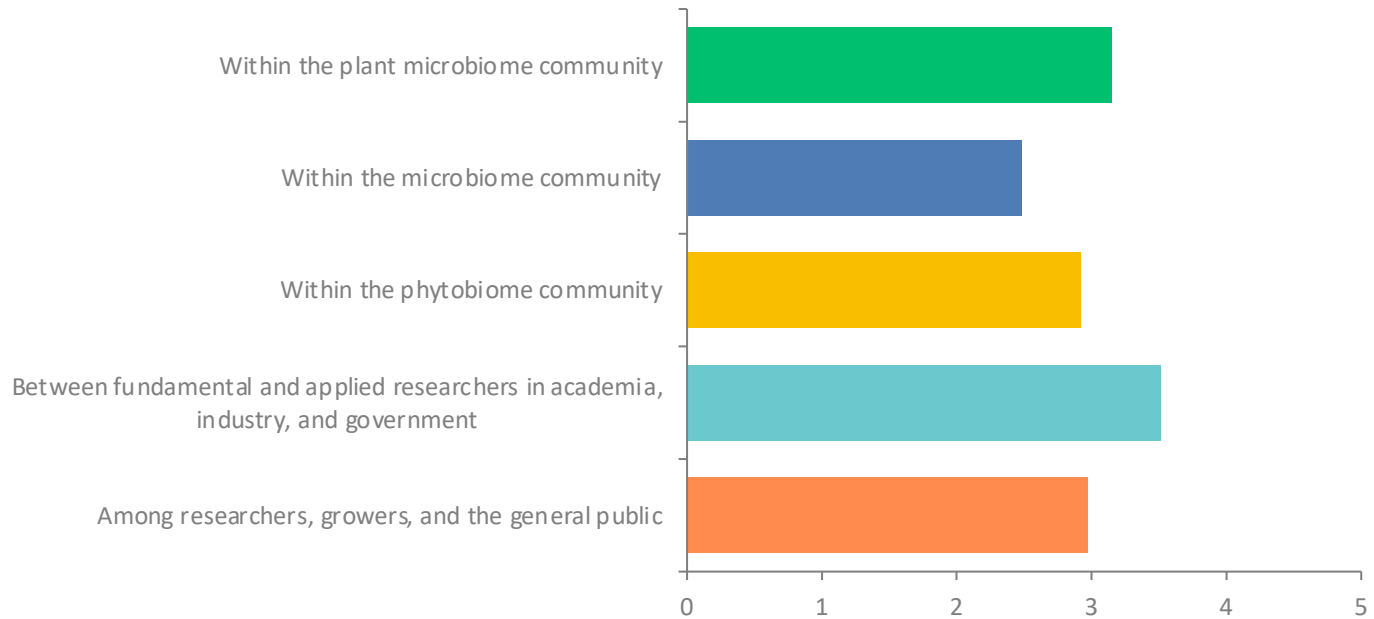

# Survey

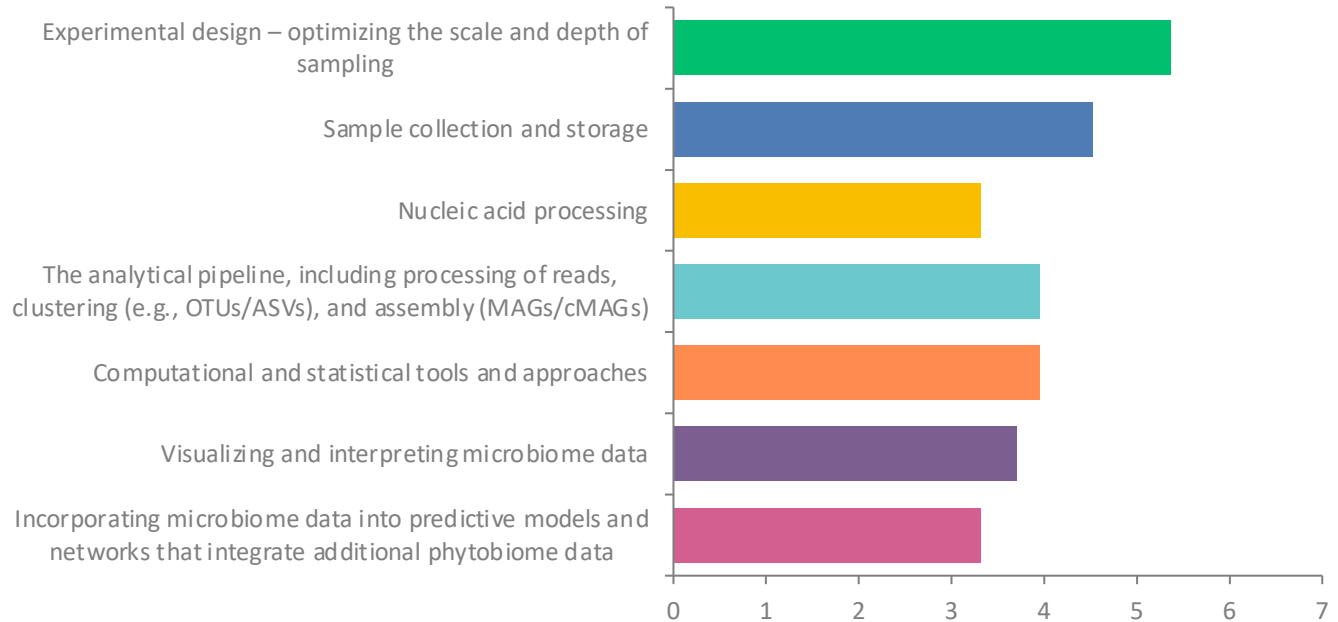

**Q: Data sharing & Communication. Please indicate your order of priority for enhancing communication within/between the following groups, with 1 being highest priority and 5 being lowest priority:**

Answered: 62 Skipped: 2

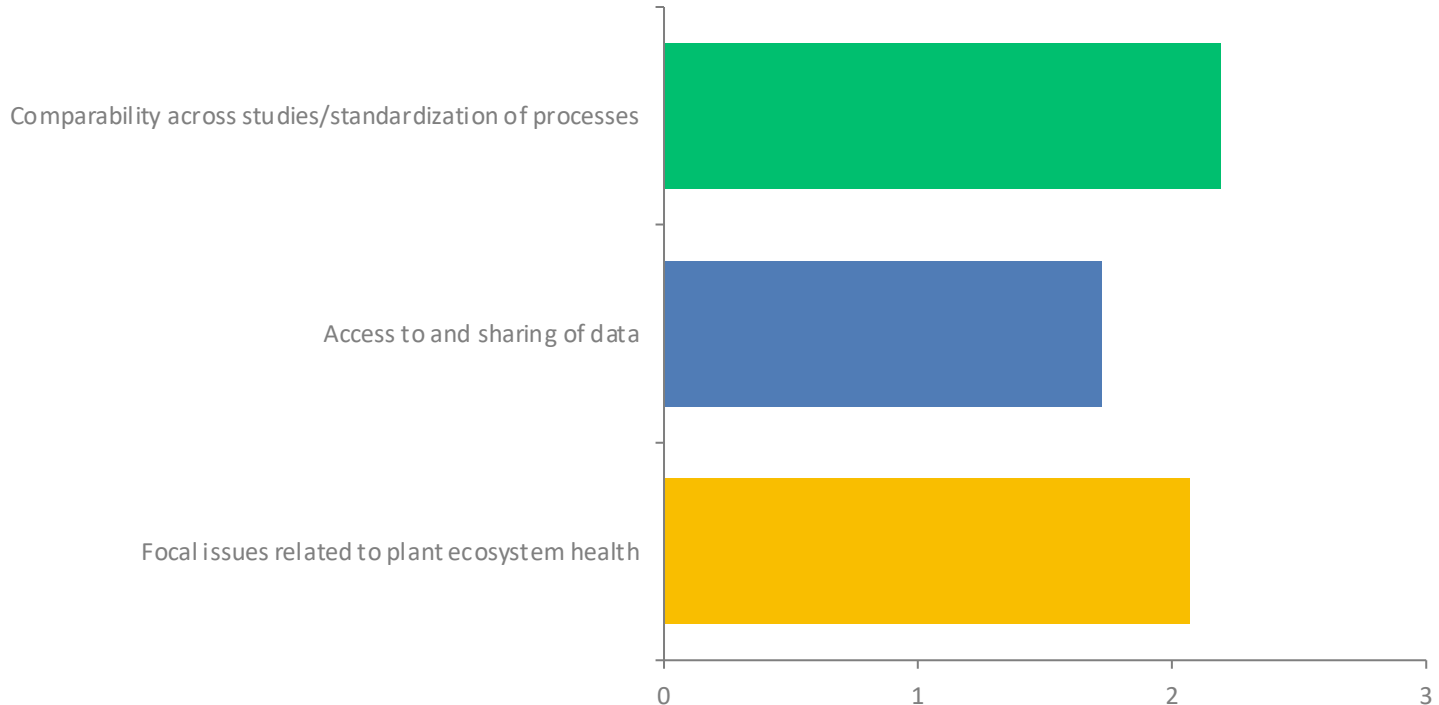

**Q: Study Comparability & Standardization. Among the following stages of sampling and analysis, please indicate your order of priority for enhancing standardization of plant microbiome studies, with 1 being highest priority and 7 being lowest priority:**

Answered: 62 Skipped: 2

**Q: Please rank the target research areas in order of importance, with 1 being the most important and 3 being the least important.**

Answered: 60 Skipped: 4

## One Health, Phytobiomes and Animal Science 28 March 2023 BSAS Conference, Birmingham, UK
