

# Phytobiomes: A New Vision for Agriculture

**Name**

Date

Conference & City Country

- Nonprofit, precompetitive research consortium
- Industry, Academia, and Government
- 8 countries
- Coordinating a paradigm shift in agricultural research and production

# Phytobiomes: Complex Systems of Plant-based Agriculture

# Examples of Phytobiomes

Crop Field

Pasture

Vegetable Garden

Forest

Vertical Farm

# Holy Grail for Phytobiomics

**To understand, predict, and control emergent phenotypes within specific phytobiomes for the sustainable production of food, feed, and fiber.**

# Phytobiomes Vision for Agriculture

**Optimal  
sustainability and  
productivity**

**Adaptive,  
data-driven,  
on-farm  
systems**

**Rapid site-  
specific  
diagnostic  
tools**

**Prescriptive  
crop  
management  
techniques**

**Resilient  
crops**

**Optimized soil  
health**

# Phylobiomes: Major Research Gaps

# Research Priorities

**Microbiome-knowledge generation**

**Standards and protocols**

**Regulatory framework**

**Data generation & management**

**Multi-disciplinary capacity building**

**Precision/digital Ag integration**

# Major Efforts

**Projects that Link Components Within the Entire Phytobiomes Network**

**Sequence-based Classification System for Microbes**

**Microbiome Standards – International Microbiome & Multi’omics Standards Alliance**

**Facilitate Regulatory Compliance**

**Coordination of Microbial Collections and Networks: Public & Private**

**Establish Linkages with Human and Animal Health & Nutrition**

Lead and coordinate efforts on specific topics

**Soil Health**  
(currently being organized)

**Microbiomes**

**Regulatory**

**Animal Microbiomes**

**Controlled Environment Agriculture**

# Why Now?

## Technological advances in

### Probing & understanding biological components

- Genome enabled technologies

### Computational sciences

- Machine learning
- Quantum computing
- Deep learning

### Precision crop management systems

- Variable rate technology
- Unmanned Aerial Systems
- Soil, plant & weather sensors
- Robots

### Systems science

- Network analysis

**Convergence of need & opportunity**

**8-10 October 2024**  
**St. Louis, MO, USA**

[www.phytobiomesconference.org](http://www.phytobiomesconference.org)

## Main Scientific topics

- Climate/weather
- Environmental Data Set
- Plant fitness
- Microbial community assembly and function
- Network analyses within the phytobiome system
- Modeling
- Data – framework, tools and resources, big data
- Genetic linkages
- Carbon sequestration
- Interactions within phytobiomes for abiotic stress
- Engineering microbes and microbial communities
- Precision agriculture/digital Ag
- Fertilizer, nutrient, and chemical input efficiency
- Product development
- Regulatory requirements
- Greenhouse & Field trials
- Industry research needs

# Phytobiomes Alliance Sponsors

# Get in Touch with Us

**Isabelle Caugant**  
Communications Director  
[caugant@eversoleassociates.com](mailto:caugant@eversoleassociates.com)

**Lori Leach**  
Chief Executive Officer  
[leach@eversoleassociates.com](mailto:leach@eversoleassociates.com)

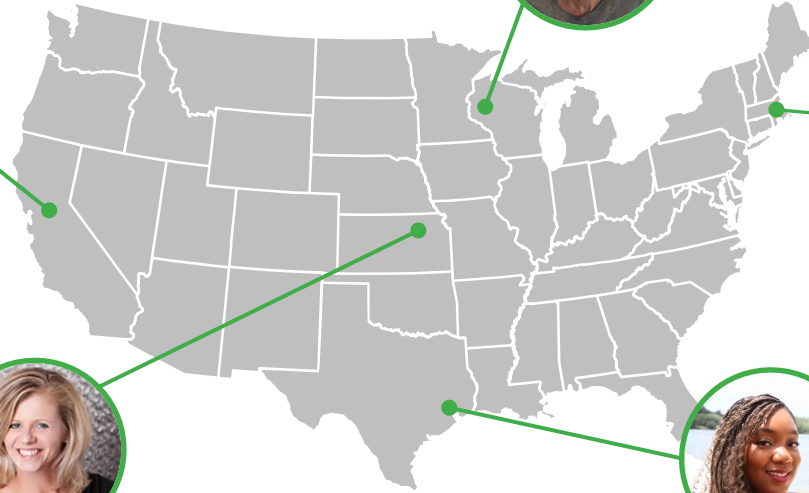

**Kellye Eversole**  
Executive Director  
[eversole@eversoleassociates.com](mailto:eversole@eversoleassociates.com)

**Dusti Gallagher**  
Deputy Director  
[gallagher@eversoleassociates.com](mailto:gallagher@eversoleassociates.com)

**Rolanda Young**  
Event Manager
